INDEPENDENT AUDITORS' REPORT

To the General Partner of **The Insiders Fund, L.P.**

Opinion

We have audited the financial statements of **The Insiders Fund**, **L.P.**(the "Fund"), which comprise the statement of assets and liabilities, including the condensed schedule of investments, as of December 31, 2021, and the related statements of operations, changes in partners' capital, and cash flows for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund, as of December 31, 2021, and the results of its operations, changes in partners' capital, and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are
 appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of
 the Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting
 estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Berkower LLC

NOTES TO FINANCIAL STATEMENTS

1. Nature of operations and summary of significant accounting policies

Nature of Operations

The Insiders Fund, L.P. (the "Fund"), a Delaware investment limited partnership, commenced operations on February 18, 2010, and will continue from year to year, unless dissolved pursuant to the terms of the Partnership agreement or by operation of law. The Fund was organized for the purpose of trading and investing in securities. The Fund is managed by Alpha Wealth Funds (formerly known as HSAX & Co., LLC) (the "General Partner").

The Fund's financial results depend on the ability of General Partner to recognize and capitalize on trends and other profit and investment opportunities within the capital markets. Unlike many operating businesses, general economic or seasonal conditions may not have any direct effect on the profit potential of the Fund due to speculative and risky nature of the Fund's investments and since the Fund's assets are managed to significantly reduce the impact of general economic or seasonal conditions. In addition, the Fund's past performance is not necessarily indicative of future results. Refer to the Fund's private placement memorandum for more information.

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP"). The Fund is an investment company and follows the accounting and reporting guidance in Financial Accounting Standard Board ("FASB") Accounting Standards Codification ("ASC") Topic 946, Financial Services-Investment Companies.

These financial statements were approved by management and available for issuance on October 31, 2021. Subsequent events have been evaluated through this date.

Cash and cash equivalents

Cash and cash equivalents represents cash deposits held at financial institutions. Cash equivalents include short term highly liquid investments of sufficient credit quality that are readily convertible to known amounts of cash and have original maturities of three months or less. Cash equivalents are held for meeting short-term liquidity requirements, rather than for investment purposes.

Fair Value - Definition and Hierarchy

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Fund uses various valuation techniques. A fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs are to be used when available. Valuation techniques that are consistent with the market or income approach are used to measure fair value. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 - Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.

Level 2 - Valuation based on inputs, other than quoted prices included in Level 1, that are observable either directly or indirectly.

NOTES TO FINANCIAL STATEMENTS

1. Nature of operations and summary of significant accounting policies (continued)

Fair Value - Definition and Hierarchy (continued)

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Fair value is a market-based measure, based on assumptions of prices and inputs considered from the perspective of a market participant that are current as of the measurement date, rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Fund's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date.

The availability of valuation techniques and observable inputs can vary from investment to investment and are affected by a wide variety of factors, including the type of investment, whether the investment is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the investments existed. Accordingly, the degree of judgment exercised by the Fund in determining fair value is greatest for investments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement.

Fair Value - Valuation Techniques and Inputs

Investments in Marketable Securities

The Fund values investments in securities that are freely tradable and listed on major securities exchanges at their last reported sales price as of the valuation date. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. Securities traded on inactive markets or valued by reference to similar instruments are generally categorized in Level 2 of the fair value hierarchy.

Investments in Securities and Securities Sold Short

Investments in securities and securities sold short that are freely tradable and are listed on major securities exchanges are valued at their last reported sales price as of the valuation date. Many over-the-counter ("OTC") contracts have bid and ask prices that can be observed in the marketplace. Bid prices reflect the highest price that the marketplace participants are willing to pay for an asset. Ask prices represent the lowest price that the marketplace participants are willing to accept for an asset. For securities whose inputs are based on bid-ask prices, the Fund's valuation policies do not require that fair value always be a predetermined point in the bid-ask range. The Fund's policy for securities traded in the OTC markets and listed securities for which no sale was reported on that date are generally valued at their last reported "bid" price if held long, and last reported "ask" price if sold short.

To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized in Level 1 of the fair value hierarchy. Securities traded on inactive markets or valued by reference to similar instruments are generally categorized in Level 2 of the fair value hierarchy.

NOTES TO FINANCIAL STATEMENTS

1. Nature of operations and summary of significant accounting policies (continued)

Fair Value - Valuation Techniques and Inputs (continued)

Derivative Contracts

The Fund records its derivative activities at fair value. Gains and losses from derivative contracts are included in net gain from derivative contracts in the statement of operations.

Option contracts

The fair value of options which are listed on major securities exchanges are valued at their last reported sales price as of the valuation date or based on the midpoint of the bid/ask spread at the close of business. Depending on the frequency of trading, options are generally categorized in Level 1 of the fair value hierarchy.

Futures contracts

Futures contracts which are listed on major securities exchanges are valued at their last reported sales price as of the valuation date. Futures contracts are generally categorized in Level 1 of the fair value hierarchy.

Investment Transactions and Related Investment Income

Investment transactions are accounted for on a trade-date basis. Dividends are recorded on the ex-dividend date and interest is recognized on the accrual basis.

Income Taxes

The Fund does not record a provision for U.S. federal, state, or local income taxes because the partners report their share of the Fund's income or loss on their income tax returns. The Fund is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement with the relevant taxing authorities. The Fund is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement with the relevant taxing authorities. Based on its analysis, the Fund has determined that it has not incurred any liability for unrecognized tax benefits as of December 31, 2021. The Fund does not expect that its assessment regarding unrecognized tax benefits will materially change over the next twelve months. However, the Fund's conclusions may be subject to review and adjustment at a later date based on factors including, but not limited to, questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions, compliance with U.S. federal, U.S. state and foreign tax laws, and changes in the administrative practices and precedents of the relevant taxing authorities. The Fund files a federal income tax return and may file income tax returns in various U.S. states. Generally, the Fund is subject to income tax examinations by major tax authorities for years after 2016.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Fund's management to make estimates and assumptions that affect the amounts disclosed in the financial statements. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

2. Fair value measurements

The Fund's assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy as described in the Fund's significant accounting policies in Note 1. The following table presents information about the Fund's assets measured at fair value as of December 31, 2021:

	 Level 1	 Level 2	 Level 3	 Total
Assets (at fair value)				
Investments in securities				
Common stocks	\$ 14,550,201	\$ -	\$ -	\$ 14,550,201
Units	479,999	-	-	479,999
Preferred stocks	97,216	-	-	97,216
Total investments in securities	15,127,416	-	-	15,127,416
Derivative contracts				
Put options purchased	\$ 178,500	\$ -	\$ -	\$ 178,500
Call options purchased	9,300	-	-	9,300
Total derivative contracts	187,800	-	-	187,800
	\$ 15,315,216	\$ -	\$ -	\$ 15,315,216

During the year ended December 31, 2021, the Fund did not have any significant transfers between any of the levels of the fair value hierarchy. The following table presents information about the Fund's liabilities measured at fair value as of December 31, 2021:

	Level 1		Level 2		Level 3		<u> </u>	Total
Liabilities (at fair value)								
Securities sold short								
Common stocks	\$	1,143,836	\$	-	\$	-	\$	1,143,836
Total securities sold short		1,143,836		-		-		1,143,836
Derivative contracts								
Call options written		33,810		-		-		33,810
Put options written		2,750		-		-		2,750
Total derivative contracts		36,560		-		-		36,560
	\$	1,180,396	\$	-	\$	-	\$	1,180,396

NOTES TO FINANCIAL STATEMENTS

3. Derivative contracts

In the normal course of business, the Fund utilizes derivative contracts in connection with its proprietary trading activities. Investments in derivative contracts are subject to additional risks that can result in a loss of all or part of an investment. The Fund's derivative activities and exposure to derivative contracts are classified by the following primary underlying equity price risk. In addition to its primary underlying risks, the Fund is also subject to additional counterparty risk due to inability of its counterparties to meet the terms of their contracts.

Options

The Fund is subject to equity price risk in the normal course of pursuing its investment objectives. The Fund may enter into options to speculate on the price movements of the financial instrument underlying the option, or for use as an economic hedge against certain positions held in the Fund's portfolio holdings. Options purchased give the Fund the right, but not the obligation, to buy or sell within a limited time, a financial instrument, commodity or currency at a contracted price that may also be settled in cash, based on differentials between specified indices or prices.

Options written obligate the Fund to buy or sell within a limited time, a financial instrument at a contracted price that may also be settled in cash, based on differentials between specified indices or prices. When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current fair value of the option written. Options written by the Fund may expose the Fund to market risk of an unfavorable change in the financial instrument underlying the written option.

For some OTC options, the Fund may be exposed to counterparty risk from the potential that a seller of an option does not sell or purchase the underlying asset as agreed under the terms of the option contract. The maximum risk of loss from counterparty risk to the Fund is the fair value of the contracts and the premiums paid to purchase its open options.

Futures Contracts

The Fund may use futures to gain exposure to, or hedge against, changes in the value of equities and commodities, interest rates or foreign currencies. A futures contract represents a commitment for the future purchase or sale of an asset at a specified price on a specified date.

The purchase and sale of futures requires margin deposits with a Futures Commission Merchant ("FCM") equal to a certain percentage of the contract amount. Subsequent payments (variation margin) are made or received by the Fund each day, depending on the daily fluctuations in the value of the contract. The Fund recognizes a gain or loss equal to the daily variation margin. Futures may reduce the Fund's exposure to counterparty risk since futures contracts are exchange-traded and the exchange's clearinghouse, as the counterparty to all exchange-traded futures, guarantees the futures against default.

The Commodity Exchange Act requires an FCM to segregate all customer transactions and assets from the FCM's proprietary activities. A customer's cash and other equity deposited with an FCM are considered commingled with all other customer funds subject to the FCM's segregation requirements. In the event of an FCM's insolvency, recovery may be limited to the Fund's pro rata share of segregated customer funds available. It is possible that the recovery amount could be less than the total of cash and other equity deposited.

NOTES TO FINANCIAL STATEMENTS

3. Derivative contracts (continued)

Volume of Derivative Activities

The volume of the Fund's derivatives activities, consisting of equity price contacts subject to equity price risk, is as follows:

	Long exp	osure		Short exposure			
Primary underlying risk	 Notional amounts	Number of contracts		Notional amounts	Number of contracts		
Equity price							
Options ^(a)	\$ 1,404,110	70	\$	3,375,343	413		
	\$ 1,404,110	70	\$	3,375,343	413		

⁽a) Notional amounts presented for options are based on the fair value of the underlying shares as if the options were exercised at December 31, 2021.

Impact of Derivatives on the Statement of Assets and Liabilities and Statement of Operations

The following table identifies the fair value amounts of derivative instruments included in the statement of assets and liabilities as derivative contracts, categorized by primary underlying risk, at December 31, 2021. The following table also identifies the net gain and loss amounts included in the statement of operations as net realized gain (loss) on derivative contracts and net unrealized appreciation (depreciation) on derivative contracts, categorized by primary underlying risk, for the year ended December 31, 2021.

erivative assets					Unrealized gain (loss)	
\$ -	\$	-	\$	(21,863)	\$	(775)
178,500		2,750		501,789		(45,875)
9,300		33,810		1,053,732		(72)
-		-		5,495		-
\$ 187,800	\$	36,560	\$	1,539,153	\$	(46,722)
_	\$ - 178,500 9,300	\$ - \$ 178,500 9,300	\$ - \$ - 178,500 2,750 9,300 33,810 	\$ - \$ - \$ 178,500 2,750 9,300 33,810 	assets liabilities gain (loss) \$ - \$ - \$ (21,863) 178,500 2,750 501,789 9,300 33,810 1,053,732 - - 5,495	assets liabilities gain (loss) \$ - \$ (21,863) \$ \$ 178,500 2,750 501,789 501,789 9,300 33,810 1,053,732 - - 5,495

4. Due from broker

Due from broker includes cash balances held with the broker. Amounts due from broker may be restricted to the extent that they serve as deposits for securities sold short.

NOTES TO FINANCIAL STATEMENTS

5. Concentration of credit risk

In the normal course of business, substantially all of the Fund's securities transactions, money balances and security positions are transacted with the Fund's broker, TradeStation Securities Inc. The Fund maintains its cash balances in financial institutions, which at times may exceed federally insured limits. The Fund is subject to credit risk to the extent any financial institution with which it conducts business is unable to fulfill contractual obligations on its behalf. Management monitors the financial condition of such financial institutions and does not anticipate any losses from these counterparties.

6. Securities sold short

The Fund is subject to certain inherent risks arising from its investing activities of selling securities short. The ultimate cost to the Fund to acquire these securities may exceed the liability reflected in these financial statements.

7. Partners' capital

In accordance with the limited partnership agreement (the "Agreement"), profits and losses of the Fund are allocated to partners according to their respective interests in the Fund. Subject to high water mark limitation, generally 20% of the net profits allocated to the limited partners are reallocated ("performance allocation") to the General Partner at the close of each calendar year. Performance allocation of \$274,293 was credited to General Partner for the year ended December 31, 2021.

Limited partners will generally be permitted to make withdrawals of capital as of the close of business on the last day of each month, provided the withdrawing partner notifies the General Partner no less than 30 days in advance of the applicable withdrawal date of its intent to make a withdrawal. Contributions are accepted as of the first business day of any calendar month.

8. Related party transactions

The Fund pays the General Partner a management fee, calculated and payable monthly in advance, equal to 2.0% per annum of the Fund's net asset value determined as of the beginning of each calendar month. For the year ended December 31, 2021, the management fee charged to the Fund was \$154,643, of which \$16,206 was payable as of December 31, 2021.

Certain limited partners have special management fee arrangements, performance allocation arrangements, or redemption rights as provided for in the Agreement.

NOTES TO FINANCIAL STATEMENTS

9. Financial highlights

Financial highlights for the year ended December 31, 2021 are as follows:

Total return	
Total return before reallocation to General Partner	35.60 %
Reallocation to the General Partner	(6.34)
Total return after reallocation to General Partner	29.26 %
Ratio to average limited partners' capital Expenses (including interest and dividends) Reallocation to General Partner	1.44 % 4.06
Expenses and reallocation to General Partner	5.50 %

Financial highlights are calculated for the limited partner class taken as a whole. An individual limited partner's return and ratios may vary based on participation in new issues, private investments, different performance and/or management fee arrangements, and the timing of capital transactions. The net investment (loss) ratio does not reflect the effects of the reallocation to the General Partner.

(0.05) %

10. Administrative fee

Net investment loss

NAV Consulting, Inc. (the "Administrator") serves as the Fund's administrator and performs certain administrative and clerical services on behalf of the Fund.

11. Subsequent events

From January 1, 2022 through October 31, 2022, the Fund accepted additional capital contributions of \$7,578,400 and had withdrawals of \$1,859,585.
