Strategy Description

THE INSIDERS FUND, LP is a long-short equity fund. We invest in companies at or near prices that management has been willing to invest significant amounts of theirown money in. After all, who knows a business better than the people running it? The SEC mandates that officers, directors, and 10% shareholders file a Form 4 detailingtheir buying and selling of their companies' securities within 48 hours of the date of the transaction. The SEC makes this info immediately available to the public. This is as close to "inside information" as the average investor is likely to come across. This is our first screen and then we apply our proprietary scoring algorithm for buys and sells.
